Master's Property Stolen.

Cracksmen Frightened Away Before They Could Loot the Safe.

Detectives of the Butler street station. Brooklyn, are to-day investigating a in H. C. Kleselbach's paint store, 107 Smith street. The thieves, it is thought, planned the burglary fully two weeks ago, and began operations by poisoning a large Great Dane watch dog, which was usually left in the store at night to keep out intruders,

The dog was in the store last night so weak that he was unable to guard his master's property. The thieves attempted to open an iron safe

to guard his master's property. The thieves attempted to open an iron safe which stood in the centre of the store, but were apparently frightened away before they completed the job.

The burgiars got into the store by prying open a shutter and opening a window from the back yard. It is supposed that they reached the yard by going through a tenement-house on Atlantic avenue and scaling fences.

Once inside the store they broke open a money drawer and secured \$15 in bills. Then they gathered up a dozen books of gold leaf, 400 cigars and other property, which they wrapped up in some clothing belonging to a clerk.

When all the portable articles had been secured they turned their attention to the safe. They first bored a half-inch hole close to the lock. Fiming that the safe could not be opened in that manner the burgiars began drilling that the safe could not be opened into the keyhole. They bored through the outside plate and if they had not been interrupted would have forced the lock within a few minutes.

As it was they dropped their tools and escaped. The dog was in the store during their visit, and lay sprawled out upon the floor within a few feet of the safe.

HOW TO DRY AN UMBRELLA.

It Should Be Shaken Well and Left Handle Down.

When you come in out of the rain, don't plump your nice silk umbrella, ferrule down, into the umbrella stand unless you want to ruin it. That lets the water and tiny specks of "grit" run down into the lining under the iron ring that secures the ribs, and it stays there, making the silk tender and rots it.

Notiter abould you leave the umbrella open to dry, says the Washington Star, as that stretches the silk and makes it stiff, and it will soon split. Shake it well, then close it and stand it handle down where the water will run off. Never set an umbrella or parasal away tightly folded. It will split open just as soon again. Leave the folds to lie loosely.

Middlebrook is 5 feet 5 inches in height, of stout build, dark complexion and hair and wore a dark gray suit.

He has been in Mr. Griesel's employ for about six weeks and received a weekly salary of 34.

Middlebrook's mother told an "Evening World" reporter to-day that her son was simple-minded, and she feared he had been injured or perhaps killed.

"He would never run away," she declared, "and even if he did only \$36 of the amount he had was in cash, so it would not do him much good.

Gravesend, was busy this morning working on the report of Town Treasurer Morris, which was submitted to the Board of Audit yesterday.

Everything is being done by McKane's friends to cover up the enormous shortage in his accounts with the town.

The report which Mr. Elliott had today shows that while all the bonds issued by the town for several years back are accurately accounted for, there is \$145,000 not on the Treasurer's report which is known to have been disposed of by McKane.

Lawyer Elliott says that aside from the \$195,000 of bonds which McKane has not yet accounted for, there are other bonds which he has disposed of and that nobody seemed to remember the Issuboys had better toddie home or you will get hurt."

The Supervisors gathered their deputy shelfs into line and charged. For about half an hour there was a lively fight for Queens County lawmakers crossed the bridge and joined in, thus making the forces about equal in size. The itrooklyn City Railroad men were the best lighters, however, and they put their antagonists to flight.
